SAVING KIDNEYS
SAVING LIVES

OUR STORY

San Jose resident Christian Jones was diagnosed with Nephrotic Syndrome when he was 2 years old. Nephrotic Syndrome (NS) is a rare and chronic kidney disease with no known cure and limited treatment options. Since 2010, the Jones family, their friends, and several local patient families have worked to raise funds for NephCure, the only 501(c)(3) dedicated to empowering people with rare, protein-spilling kidney disease to take charge of their health, while leading the revolution of research, new treatments, and care.

With the help of NephCure-funded research discoveries, there are now more than 60 clinical trials studying potential new medicines for patients in our community. Recently the FDA announced that the first therapy specifically developed for rare kidney disease patients has been granted accelerated approval. This amazing progress would not be possible without our sponsors' tremendous support.

BBQ COMPETITION, TEAM BUILDING, NETWORKING & FAMILY FUN

The Silicon Valley Pig Jig features live music throughout the day, delicious foods, a craft beer garden supported by local breweries, a kids zone with bounce houses, face painting, and balloon artists as well as an opportunity to make cards for NS patients. While enjoying the music, guests can play a game of corn hole, test their axe throwing skills, enjoy a soft-serve ice cream or see how long they can ride the mechanical bull!!!

The Rosendin Electric Team - 2024 Honorary Chairs

"The Pig Jig Committee puts on the best party of the year! I look forward to that day each year when we can all get together to raise money for NephCure. The event is so well run, and the day is filled with love, joy and BBQ!"

— Bert George of Joseph George Fine Wines, NephCure supporter since 2010

"So grateful for this incredible annual fundraising event for NephCure to help find better medical treatments for Nephrotic Syndrome and FSGS kidney patients like Zane! From the bottom of my heart, I can't thank my NephCure/FSGS family enough for all of their hard work and effort!"

— Karlene Cabison, Patient Caregiver
